## LIGHT. INNOVATION, SUSTAINABILITY.

There is an ethics of light that has always concerned us: being born means living in an environment for which we are responsible. Precisely for this reason, the most beautiful light is natural light and must be respected, if possible emulated. Every lighting virtuosity is useless if it does not take into account the fact that artificial lighting can only be appreciated if it is in perfect harmony with the surrounding space.

From nature to technology, a responsible commitment combines health and well-being for humans in the complete respect for the environment. In this perspective, we have always worked with precise goals: to develop new technical solutions with low environmental impact, reducing CO<sub>2</sub> emissions related to lighting, and to ensure optimal visual comfort in every situation of private, working, social and recreational life.

The use of LEDs fully responds to these needs, since they permit to conceive increasingly advanced solutions that allow significant energy savings. This is a work in progress that demands constant monitoring with a focus on environment and climate sustainability.

Looking to the future of light is our imperative, which we intend to realise through an ethically and ecologically sustainable research.

Arcluce S.p.A.

## COMPANY

ARCLUCE, SINCE 1989

Arcluce S.p.A. is an Italian company specialised in the design and manufacture of indoor and outdoor lighting solutions.

Arcluce works with architects, designers and design studios all over the world, promoting a culture of high quality and creativity that has always characterised its products.

The company has been constantly growing over the years thanks to the continuous focus on research and development.

From the very concept to the finished product, Arcluce manages each step of the entire manufacturing process at its headquarters in San Zenone al Lambro, close to Milan.

Arcluce's know-how, constant innovation and attention to details result in lighting products characterised by elegant and functional design, able to satisfy the technical and aesthetic requirements of any project. All Arcluce products are manufactured thanks to the latest technologies and with cutting-edge and sustainable components that guarantee reliability and long lasting efficiency.

### SPECIALISED KNOW-HOW

Highly specialised technical expertise, together with a great passion for the light sector and a long-standing tradition of excellence make Arcluce the best partner for your lighting project.

### CERTIFIED QUALITY

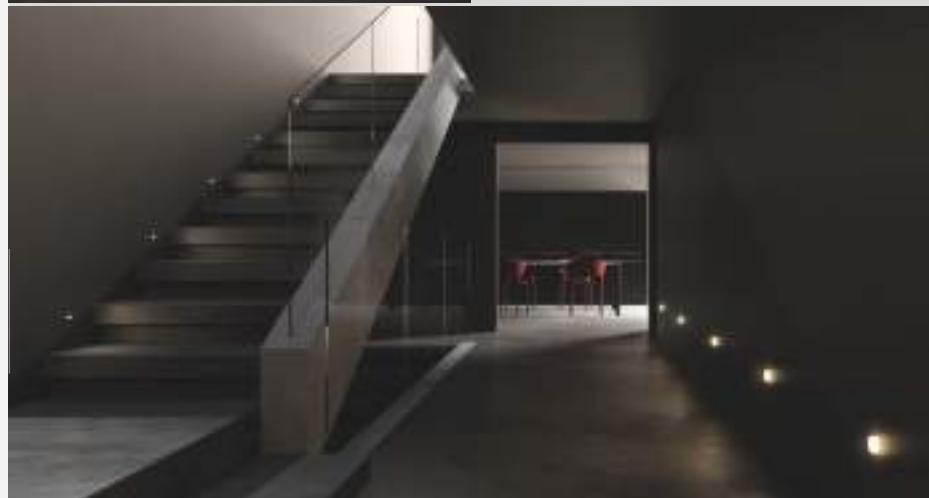

All Arcluce products undergo an accurate testing process to verify their compliance with the existing regulations and adherence to the highest standards of quality.

Arcluce S.p.A.  
is UNI EN ISO 9001: 2015 Quality System Certified.  
CISQ/CSQ n. 9105.ARCL Certification.

## C O M P A N Y *(continued)*

## C O N S U L T I N G

Arcluce offers a complete lighting consultancy service, supporting designers and architects in identifying the best solutions for the functional and environmental requirements of any project.

Our technicians use Dialux to design lighting projects and oversee all stages, from the initial concept to the installation of products.

## I N N O V A T I O N

For over 30 years of activity, Arcluce has never stopped renewing and innovating its product design in order to respond to the technological progress that distinguishes the lighting sector.

## SUSTAINABILITY

WE HELP THE PLANET

### Sustainable development = common goal

The United Nations Organisation, within the 2030 Agenda for Sustainable Development, set a series of objectives that constitute the shared roadmap for peace and prosperity for people and the planet. Everyone can participate in achieving these goals by making their own contribution.

Among the seventeen objectives, we have selected three on which we will focus our efforts:

#### GOAL N° 7

##### Affordable Clean Energy

The development and promotion of efficient luminaires and intelligent control systems significantly contributes to the reduction of energy consumption.

#### GOAL N° 11

##### Sustainable cities and communities

Urban lighting, in addition to fulfilling its main function of making cities safe at night (also by means of IoT devices) represents the backbone of future value-added services of Smart Cities: connectivity, interaction, monitoring.

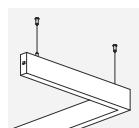

#### GOAL N° 12

##### Responsible consumption and production

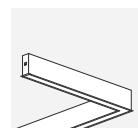

Products should no longer be conceived and developed as disposable objects: they have to be designed and manufactured in a circular use-repair-recycle approach. Particular attention is therefore paid to the choice of materials and technical solutions.

	Dust-proof and sealed against submersion at a maximum depth of 10m.

## INSULATION CLASSES

	<b>CLASS I</b> Light fittings with all accessible metal parts connected to earth circuit.
	<b>CLASS II</b> Light fittings where all accessible metal parts are insulated from voltage in case of failure. The light fitting does not avail of earth device.
	<b>CLASS III</b> Light fittings working with very low voltage. The light fitting does not avail of earth device.

## WIRINGS

The light fittings are suitable for **230V/50Hz** voltage. Different voltages available upon request.

<b>A</b>	<b>ON/OFF</b>	No need for remote driver (230V/50Hz power supply).
<b>B</b>	<b>DALI</b>	Wired with DALI dimmable driver.
<b>E</b>	<b>BIP</b>	Bi-power wiring with switching for nighttime power reduction.
<b>D</b>	<b>DIMM</b>	Wired with dimmable 1-10V driver.
<b>K</b>	<b>DALI 48V</b>	Wired with dimmable DALI 48V driver.
<b>P</b>	<b>PHASE-CUT</b>	Wired with PHASE-CUT dimmable driver.
<b>R</b>	<b>PUSH</b>	Wired with PUSH DIMM dimmable driver.
<b>T</b>	<b>BLE</b>	Wired with BLE control device.
<b>F</b>	<b>DMX</b>	Wired with DMX driver.
<b>S</b>	<b>SNS</b>	Wired with presence sensor.

## EMERGENCY VERSIONS

<b>G</b>	<b>ON/OFF-E</b>	Wired with driver, 1 hour emergency duration.
<b>H</b>	<b>DALI-E</b>	Wired with DALI dimmable driver, 1 hour emergency duration.
<b>M</b>	<b>BIP-E</b>	Bi-power wiring with switching for nighttime power reduction, 1 hour emergency duration.
<b>L</b>	<b>DIMM-E</b>	Wired with dimmable 1-10V driver, 1 hour emergency duration.
<b>N</b>	<b>PHASE-CUT-E</b>	Wired with phase-cut dimmable driver, 1 hour emergency duration.
<b>U</b>	<b>BLE-E</b>	Wired with BLE control device, 1 hour emergency duration.
<b>V</b>	<b>SNS-E</b>	Wired with presence or presence/brightness sensor, 1 hour emergency duration.
<b>C</b>	<b>REM-D</b>	Remote driver required.
<b>X</b>	<b>Accessories</b>	

## CLASSIFICATION

Main symbols & icons

	Recessed hole.
	Technopolymer resistant to 850 °C glow wire test.
	Surface exposed to the wind.
	The CE mark states the conformity of products to the essential requirements of the European Community Directives.
	Suggested applications.
	Product information notes or accessories.
	GU10 LED lamps.
	Protection degree IP.
	<b>IK Code:</b> Degrees of protection provided by enclosures for electrical equipment against external mechanical impacts.
	Anti-flicker technologies for improved visual comfort.
	Product suitable for use in rooms with video terminals.
	CCT selector switch for settings: warm light, natural light, cold light.
	Presence detection sensor for switching lights on/off.
	Emergency batteries for lighting in case of power failure.
	Adjustable optic.
	High Colour Rendering Index.
	High efficiency fitting.
	High visual comfort.
	Manual adjustable shaping.
	Reduced height fitting.
	Cable with millimetric adjustment.

## other symbols & icons

	Fitting with interchangeable reflector.
	Beam opening adjustment.
	Installation without tools.
	Dimmable 1-10V luminaire.
	DALI wired luminaire.
	DMX wired luminaire.
	Bluetooth BLE-DALI connection.
	Tunable White versions.

## MODULAR SYSTEMS

*When lighting meets creativity.*

Modular systems for the lighting design of offices, retail spaces and residential areas. The Arcluce range includes lighting solutions for recessed (ceiling and wall), surface-mounted and pendant installations, combining linear and angular elements to customise spaces with functionality, creativity and design.

## **RIGO31**

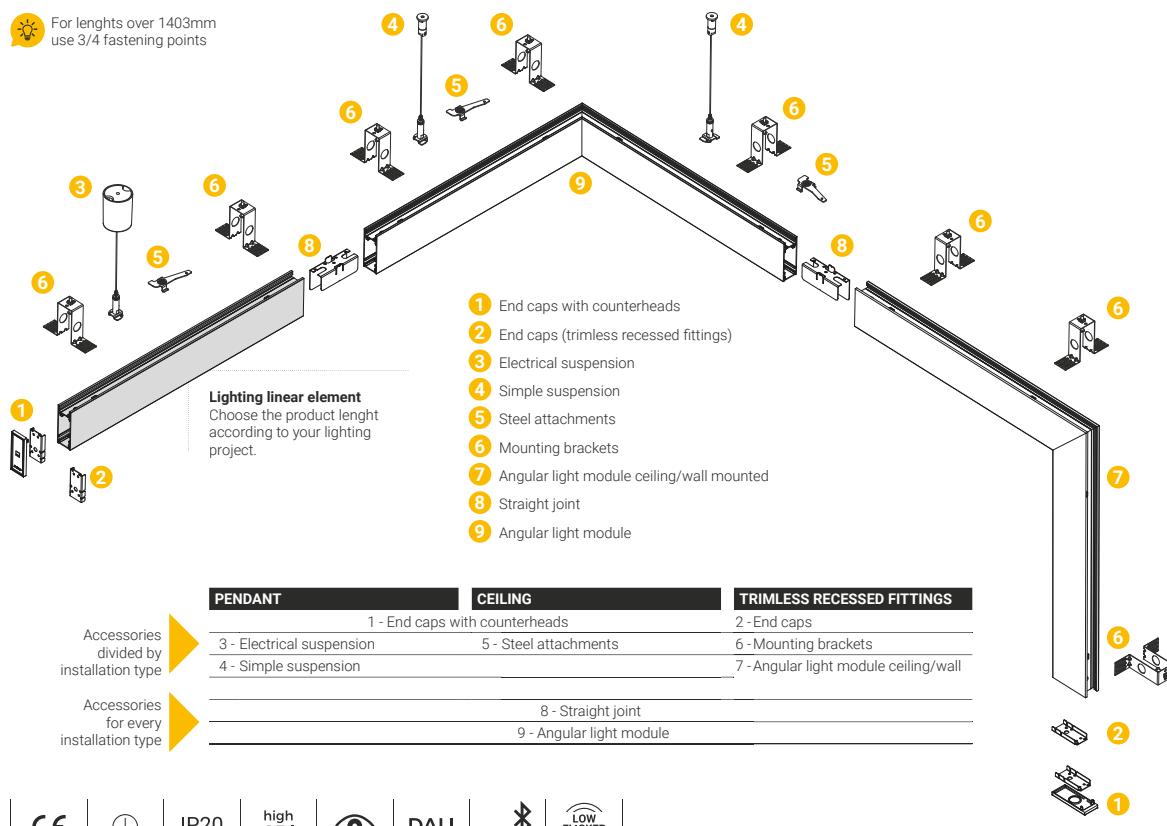

*Space for creativity.*

Only 36 mm of thickness: RIGO31 is the modular system that can be installed as a recessed luminaire, ceiling fitting, wall and pendant luminaire. Available with an opal screen or microprismatic diffuser, it illuminates offices, shops, hotels and residential spaces functionally and with a pleasant aesthetic effect.

**RIGO31**

The RIGO31 Modular System offers the highest lighting performances and the possibility to design unique and customised compositions.

**LUMINAIRE**

Extruded aluminium body; End caps made of die-cast aluminium with magnetic fixing or in painted steel; Polyester powder paint resistant to UV rays; Transparent microprismatic polycarbonate or opal screen; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-2.

**INSTALLATION**

Suspended, wall, ceiling or trimless recessed installation; Grommet for single cable entry; Galvanized steel brackets; Steel cable 1.5m for suspension.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468. End caps and fixation accessories to be ordered separately.

## Variants

**RIGO31** is the modular system that offers multiple installation possibilities. The many available accessories allow for pendant, ceiling and trimless recessed (ceiling/wall) installation.

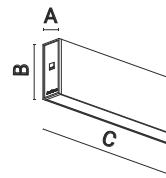

**RIGO-IN31** is the recessed ceiling luminaire with frame.

The modular system can be completed with **RIGO31 WALL** (installation on wall bracket). Verify dimensions and optics at page 430.

RIGO-IN31 | performance / comfort | white color

## RIGO-IN31

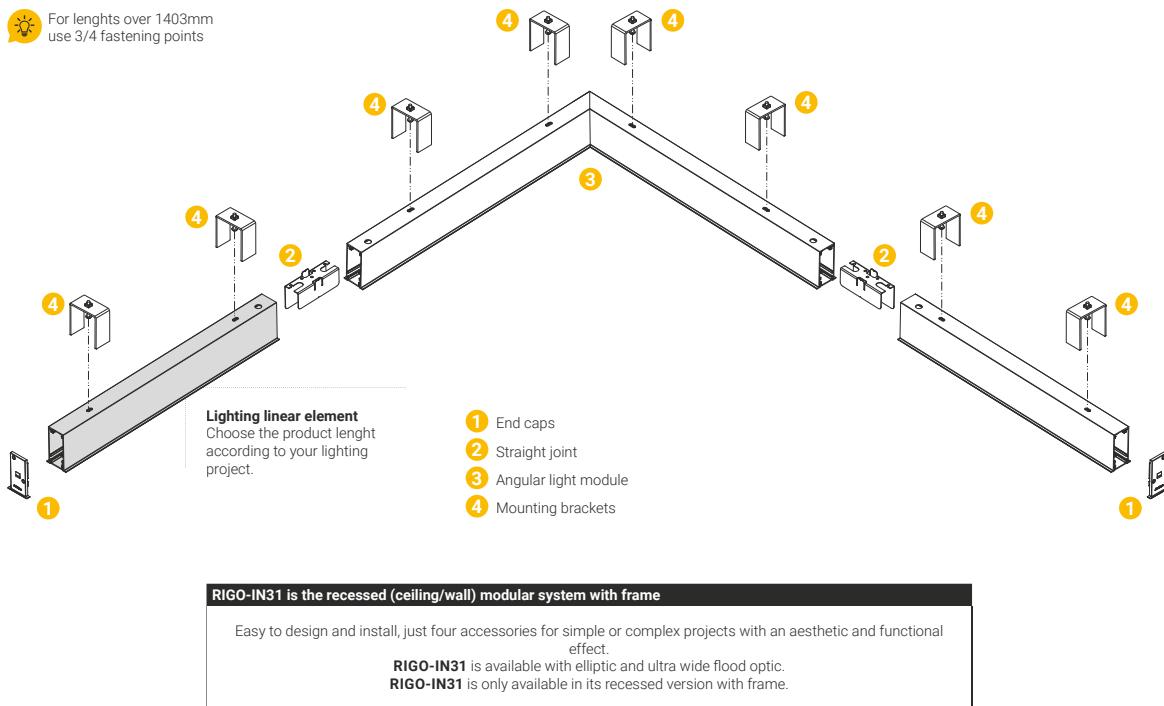

*Lines of light.*

The RIGO-IN31 is the modular downlight with frame for creating impressive lines of light along ceilings and walls. With a **thickness of only 46 mm** (including frame), it allows professional and customised lighting of commercial, work and residential environments.

## RIGO-IN31 / RECESSED DOWNLIGHT WITH FRAME

Different optics, screens and colour temperatures make RIGO31 the perfect solution for several environments such as offices, shops, hotels and private homes.

### LUMINAIRE

Extruded aluminium body; Die-cast aluminium end caps; Polyester powder paint resistant to UV rays; Transparent microprismatic polycarbonate or opal screen, or reflector in brushed aluminum; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-2.

### INSTALLATION

Recessed installation; Grommet for single cable entry; Galvanized steel brackets.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468. End caps and fixation accessories to be ordered separately.

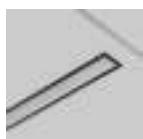

### STANDARD PRODUCT

RIGO51 | comfort, performance | white color

## **RIGO51**

*Design with freedom.*

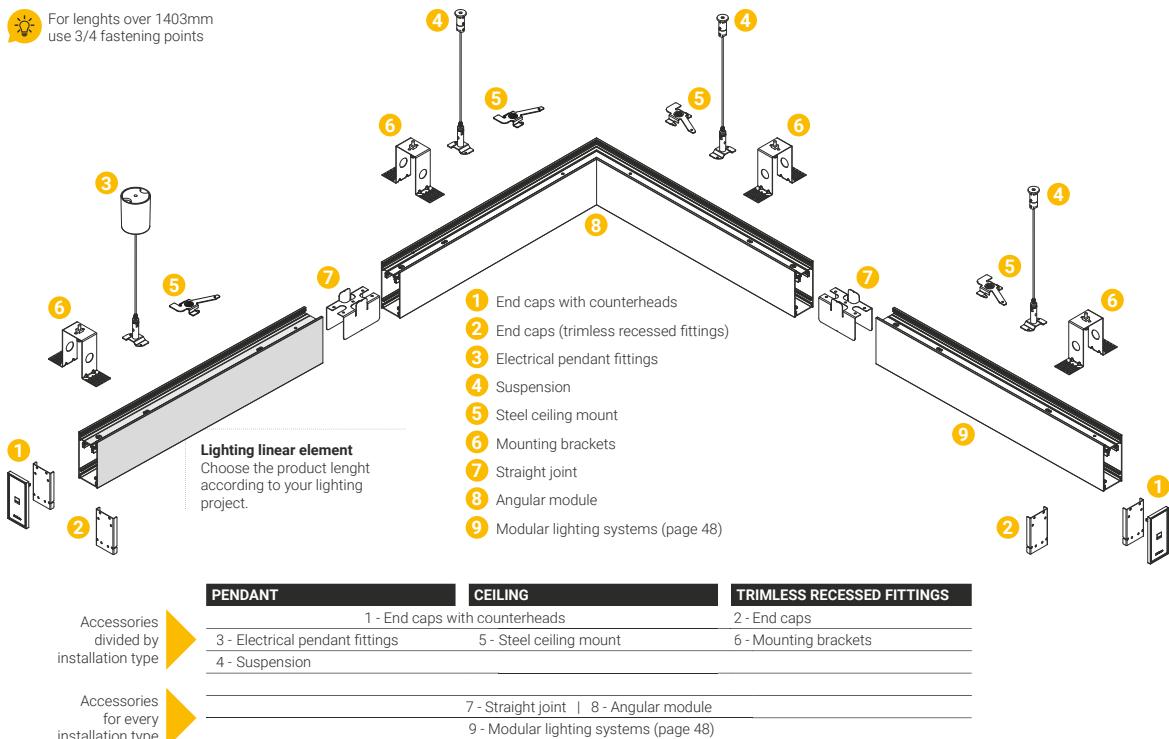

RIGO51 is the modular system for pendant, ceiling or recessed (ceiling/wall) installation. The many possible combinations of linear and angular elements that illuminate rooms with comfortable and functional light allow to design lighting solutions with creativity.

**RIGO51**

**RIGO51** allows to design the most different configurations, creating elegant lighting systems that can be customised to suit every project need.

 For lengths over 1403mm use 3/4 fastening points

**LUMINAIRE**

Extruded aluminium body; End caps made of die-cast aluminium with magnetic fixing or in painted steel; Polyester powder paint resistant to UV rays; PMMA lenses for LEDs; Transparent microprismatic polycarbonate or opal screen, or reflector in brushed aluminum; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-2.

**INSTALLATION**

Suspended, ceiling or trimless recessed installation; Grommet for single cable entry; Galvanized steel brackets; Steel cable 1.5m for suspension.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468.  
End caps and fixation accessories to be ordered separately.

## Variants

**RIGO51** offers multiple installation possibilities. Thanks to the numerous accessories available, it can be installed as a suspended, ceiling or trimless recessed (ceiling/wall) luminaire.

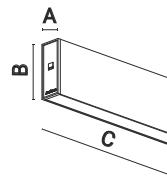

**RIGO-IN51** is the recessed ceiling luminaire with frame.

The modular system can be completed with **RIGO31 WALL** (installation on wall bracket). Verify dimensions and optics at page 434.

## RIGO51 / STRUCTURAL MODULES

RIGO51 is the modular lighting system that enables different configurations by combining linear and angular elements in different applications.

### LUMINAIRE

Extruded aluminium body; End caps made of die-cast aluminium with magnetic fixing or in painted steel; Polyester powder paint resistant to UV rays; PMMA lenses for LEDs; Transparent microprismatic polycarbonate or opal screen, or reflector in brushed aluminum; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-2.

### INSTALLATION

Suspended, ceiling or trimless recessed installation; Grommet for single cable entry; Galvanized steel brackets; Steel cable 1.5m for suspension.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468. End caps and fixation accessories to be ordered separately. It matches with other versions of RIGO51 system.

### STANDARD PRODUCT

RIGO-IN51 | performance / comfort | white color

## **RIGO-IN51**

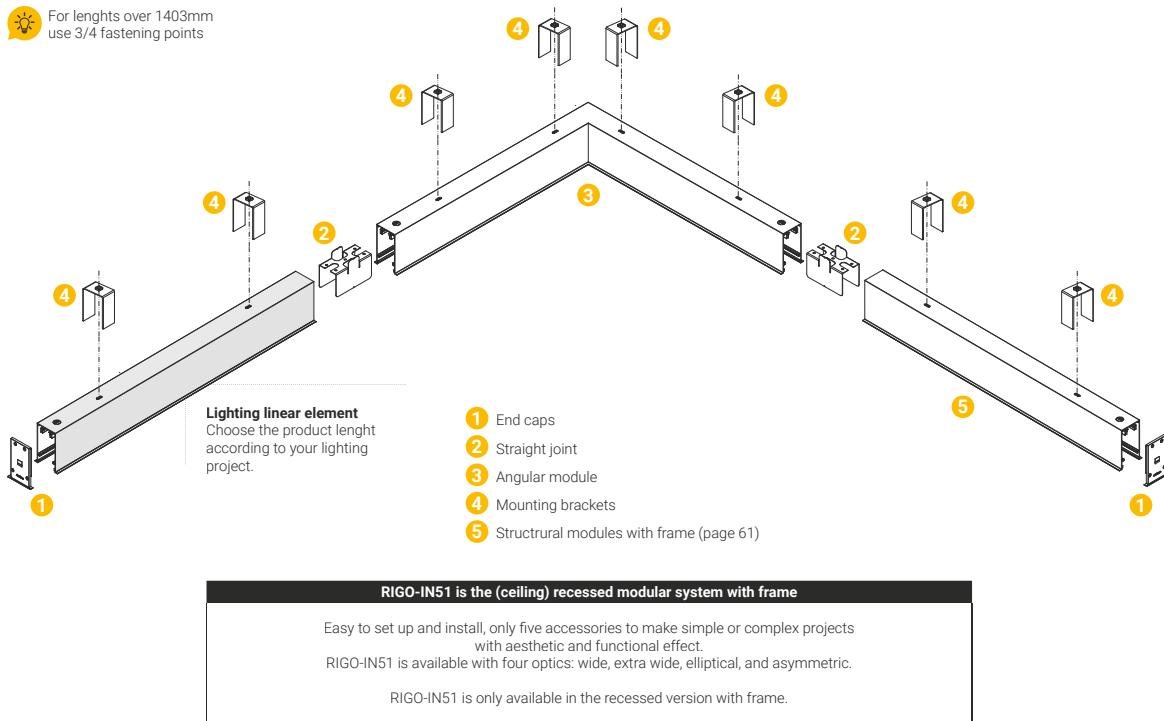

*Lighting essentiality.*

RIGO-IN51 is the modular recessed luminaire with frame that enhances and gives character to interior spaces. Completely modular and extremely versatile, with a wide variety of optics, it adapts to different project requirements.

## RIGO-IN51 / RECESSED MODULAR SYSTEM WITH FRAME

As modular lighting system, RIGO-IN51 allows infinite combinations of linear and angular, horizontal and vertical luminous elements for elegant and functional light schemes.

### LUMINAIRE

Extruded aluminium body; Die-cast aluminium end caps; Polyester powder paint resistant to UV rays; PMMA lenses for LEDs; Transparent microprismatic polycarbonate or opal screen, or reflector in brushed aluminum; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-2.

### INSTALLATION

Recessed installation; Grommet for single cable entry; Galvanized steel brackets.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468. End caps and fixation accessories to be ordered separately.

CORSO100 | modular lighting systems | black color

## **CORSO100**

*Designing light paths.*

CORSO100 is the recessed modular system that, thanks to its special structure, adds style and personality to rooms. Particularly suitable for shops and showrooms, it offers versatile and functional lighting, capable of highlighting objects and elements.

**CORSO100**

The extruded aluminum body and its black colour make it a durable yet aesthetically pleasing product.

**STRUCTURE**

Extruded aluminium body and end caps;  
Cover made of powder coated sheet steel;  
Polyester powder paint resistant to UV rays.

**INSTALLATION**

Recessed installation.

End caps and fixation accessories to be ordered separately.

**LUMINAIRE**

Die-cast aluminium body; Polyester powder paint resistant to UV rays; Reflector made of engineering plastic metalized in high-vacuum; Visor made of black engineering plastic; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-1.

**INSTALLATION**

Recessed installation.

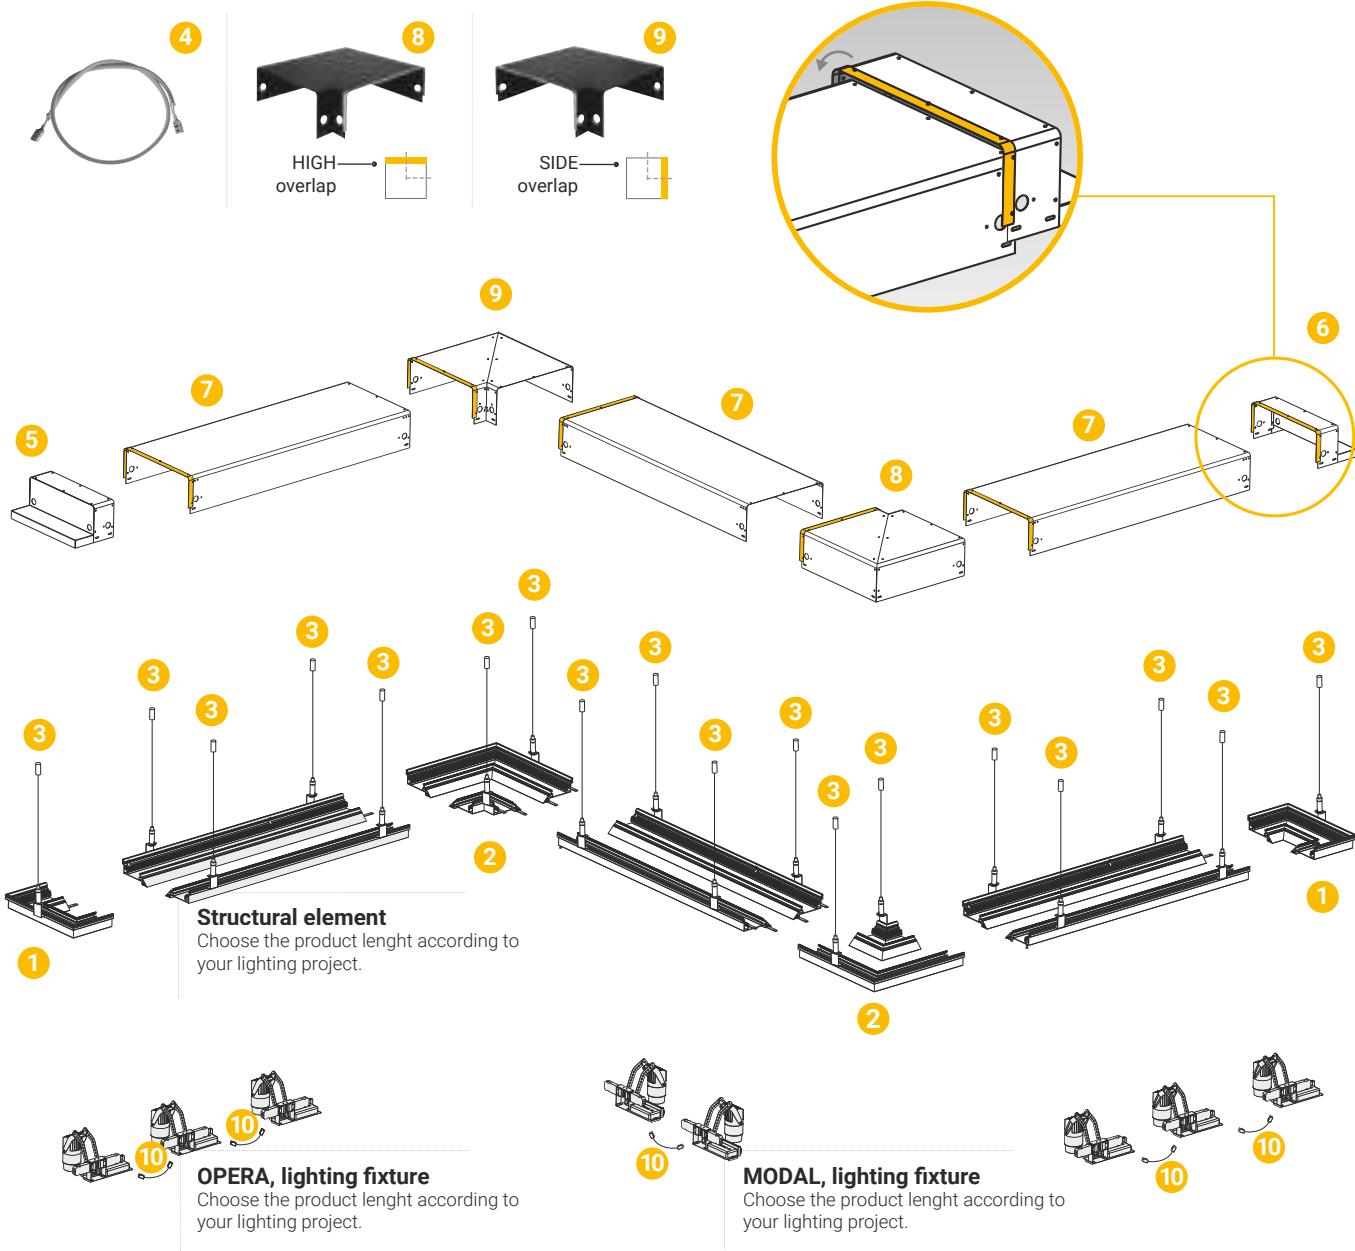

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468.

# 220V TRACKS

*Functional and versatile lighting.*

Designed for contexts where lighting is functional as lighting requirements change, electrified tracks allow ample freedom in the positioning and orientation of spotlights and pendant luminaires. The possibility of customising lighting effects to create surprising lighting designs ensures maximum visual comfort in shops, showrooms, exhibition areas, museums, art galleries and residential environments.

**ADVICE**

Always close track with end caps cod. 1099176X-11

**DESIGN LOAD**

The diagram shows a cross-section of the track with a total length of 900mm. It is divided into two sections of 450mm each. A vertical force of 25 kg is applied at the left end, and a horizontal force of 50 kg is applied at the right end.

**FIXING HOLE PATTERN**  
Interdistance between standard fixing holes 500mm (see table).

The diagram illustrates the fixing hole pattern. The distance between the outer holes is 12mm. The distance between the inner holes is 4mm. The distance from the outer edge to the inner hole is labeled 'a'. The distance between the inner holes is labeled 'b'. The total width of the track segment is labeled 'c'.

CHANGE THE COVER OF THE JOINTS  
FOR THE RECESSED SYSTEM  
(1099104X, 1099106X, 1099107X,  
1099105X)

**ACCESSORIES****For electrified track system**

<b>1099176X-11</b>	Track end cap.	0,10Kg
<b>1099177X-11</b>	Recessed track end cap.	0,10Kg
<b>1099103X-11</b>	Cover strip, lenght 1 m.	0,19Kg
<b>1099322X-11</b>	IP40 protection cap for eyelets.	0,24Kg

**ADVICE****HOW TO CUSTOMISE THE TRACK**

Electrified rails are supplied with a standard length. When custom measurements are needed, they must be cut with a hacksaw or circular saw suitable for aluminum. After cutting the track you must shorten the contacts with the appropriate accessory (1099258X) to a length of at least 5 mm.

OPERA | white color

## OPERA

*Emphasis on details.*

OPERA precisely illuminates every protagonist detail. The practical lighting technology of the 90° swivelling body allows for a clear and precise illumination that enhances and highlights architectural particulars.

## OPERA

Installed on electrified track, OPERA illuminates details in residential, commercial and exhibition environments.

### LUMINAIRE

Die-cast aluminium body; Polyester powder paint resistant to UV rays; Reflector made of engineering plastic metalized in high-vacuum; Visor made of black engineering plastic; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-1.

### INSTALLATION

220V Track installation; Engineering plastic track adaptor.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468.

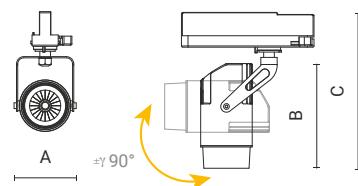

### STANDARD PRODUCT

MODAL1 | white color

## **MODAL1**

*Compact and adjustable.*

Designed for different environments in residential and professional settings, MODAL1 is the spot that can be swivelled by 90° and customised by adding accessories such as louvres and visors to achieve the desired lighting effect.

**MODAL1**

The quality of the optics and the high colour rendering index ensure high-performance lighting.

**LUMINAIRE**

Die-cast aluminium body; Die-cast aluminium control gear box; Polyester powder paint resistant to UV rays; Reflector made of engineering plastic metallized in high-vacuum; Visor made of black engineering plastic; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-1.

FOBO1/FOBO2 | white color

## FOBO

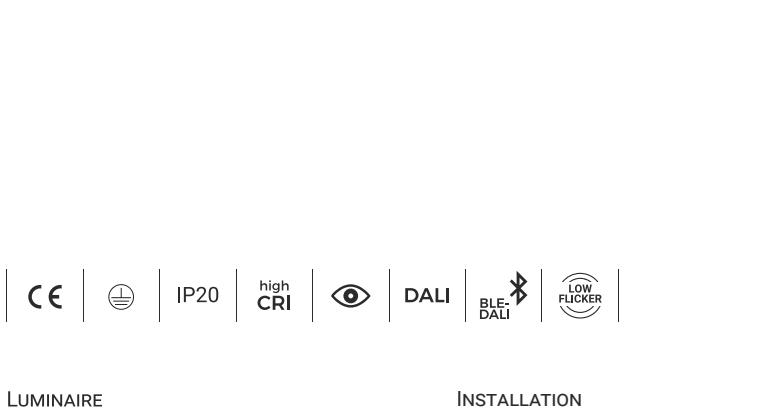

*The professional technical spot.*

The 90° swivelling body encloses a technological soul in a sophisticated design. The recessed light sources ensure high colour rendering and visual comfort, while the Professional LED versions allow dedicated lighting for food counters, commercial, display and residential areas.

**FOBO**

The optics provide the highest level of visual comfort for lighting solutions that enhance the details that matter.

**FOBO1****FOBO2****LUMINAIRE**

Die-cast aluminium body; Polyester powder paint resistant to UV rays; Reflector made of anodized aluminium with non-iridescent specular finishing or metallized polycarbonate in high-vacuum; Visor made of black engineering plastic; Fixture with GU10 socket (light bulb not included); High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-1.

**INSTALLATION**

220V Track installation; Engineering plastic track adaptor; Possibility of ceiling installation, wall installation or recessed installation using special accessory base in technopolymer.

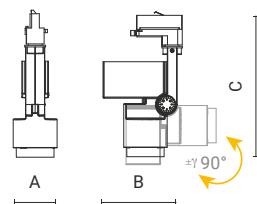

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468.

## LED PROFESSIONAL APPLICATIONS

## FOOD - LARGE-SCALE DISTRIBUTION

LED suitable:  
- for fruit, vegetables and cheese,  
- for bakery counter,  
- fish and butcher's counter

## RETAIL - MUSEUMS

LED suitable:  
- for retail, museums and art galleries

## LED PROFESSIONAL (LED P.)

LED optimised for the enhancement of specific product types.  
Check the LED P. column in the grid.

**BR** = Suitable for bakery counter  
**FC** = Suitable for fruit,  
vegetables and cheese  
**FS** = Suitable for fish counter

**MD** = Suitable for retail  
**MS** = Suitable for museums and art  
galleries  
**MT** = Suitable for butcher's counter

DECK3 | white color

## DECK

*Adjustable by 170°.*

Designed for 220V electrified track installation, DECK is distinguished by a body that can be swivelled up to 170°, allowing the light to be directed downwards to illuminate spaces and objects or upwards to illuminate ceilings and vaults.

## DECK

Available in white or black, it is suitable for lighting museums and art galleries, shops, showrooms, offices and homes.

### LUMINAIRE

Body and frame in turned aluminum; Polyester powder paint resistant to UV rays; Driver included in the adapt; High vacuum metallized plastic reflector or optical polymer lenses; Long LED life time > 50000h; It complies with standards EN 60598-1 and EN 60598-2-1.

### INSTALLATION

220V Track installation; Engineering plastic track adaptor.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468.

REWOZoom | white color

## **REWOZOOM**

*All the advantages of a zoom.*

Available in black or white, the REWOzoom features an adjustable optic from 20° to 55°. The zoom function allows the light beam to be narrowed or widened according to changing requirements, such as inside shops, showrooms and retail outlets.

TRACK 220V

 Arcluce

## REWOZOOM

Light and linear design combined with a colour rendering index of 90 and colour temperatures of 3000K and 4000K to guarantee lighting efficiency and wide versatility of use.

### LUMINAIRE

Extruded aluminium body; Polyester powder paint resistant to UV rays; Driver included in the adapter; Reflector made of engineering plastic metallized in high-vacuum or PMMA lenses; Long LED life time > 50000h with L80; It complies with standards EN 60598-1 and EN 60598-2-1.

### INSTALLATION

220V Track installation; Engineering plastic track adaptor.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468.

MACROZoom | white color

## MACROZOOM

*Compact with a zoom.*

Its reduced thickness, swivelling body and practical built-in zoom make this spotlight particularly suitable for illuminating shop windows and shops. The zoom is extremely flexible for illuminating areas and objects.

**MACROZOOM**

Thanks to a high colour rendering index (CRI>90), this luminaire offers high lighting performance.

## TRAC-line 48V

TRAC-line 48V is a versatile product, suitable for the following models: ZENO, DECK, TYPO, STILO, ORION, JUNO and LINEAR.

### LUMINAIRE

Extruded aluminium body; Prepared for DALI.

### INSTALLATION

Suspended, ceiling or recessed installation;  
The use of power supplies, drivers and  
components other than SELV rated, is strictly  
forbidden. It is recommended the usage of  
an opto-insulated DALI repeater.

Versions with Casambi and other modern  
control systems available, for more  
information see the "Light Control" section on  
page 468; End caps and fixation accessories  
to be ordered separately; Tool-less light  
fixture installations.

## ADVICE

## HOW TO PROCEED IN CASE YOU NEED A SHORTER TRACK

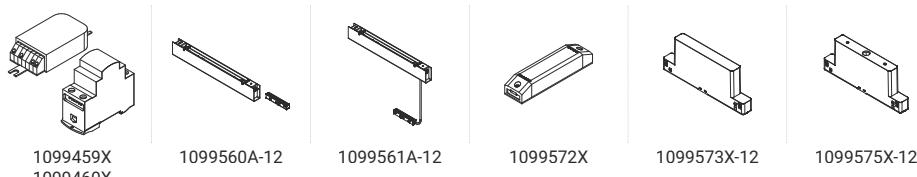

Tracks are available in lengths of 1, 2 and 3m and are supplied with copper conductors already embedded (as required by the safety standard). If it is necessary to shorten the length of the track during installation, it is necessary, after cutting, to use the special cutter (accessory), taking care to cut the 4 conductors by at least 5mm to ensure the correct electrical clearance in air and surface.

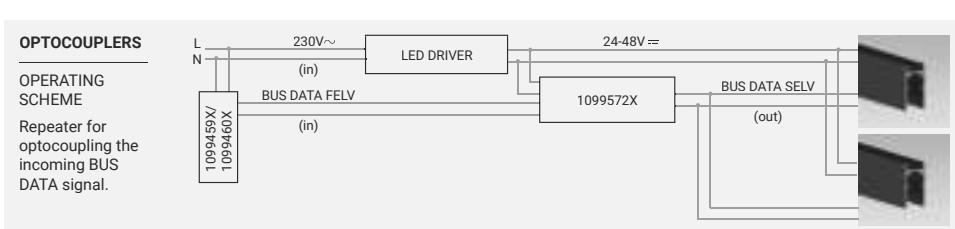

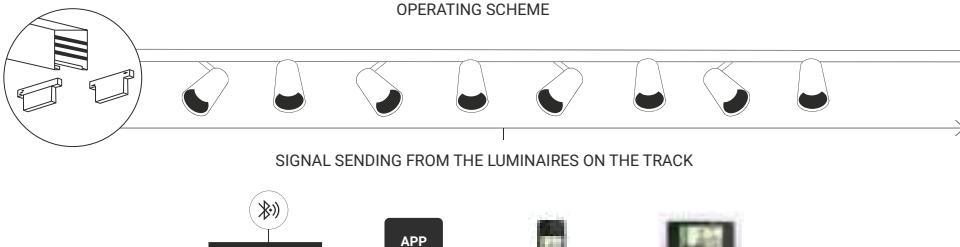

ACCESSORIES	Track end caps	
1099522X-12	End cap (NEXT-S)	0,05Kg
1099523X-12	End cap (NEXT-L, NEXT-IN L)	0,05Kg

### LIGHTING CONTROL DEVICES OPERATING SCHEME

ZENO | twinspot | black color

## ZENO

*Lighting with personality.*

Geometric and compact, this spotlight comes in two versions: with a single or double light source. Customisable with front covers in black, chrome white and brass, it enriches the environment with a touch of personality.

**ZENO**

With warm light and a high colour rendering index, it illuminates in style while ensuring high visual comfort.

**ZENO SPOT****ZENO TWIN SPOT****LUMINAIRE**

Body and frame in turned aluminum;  
Polyester powder paint resistant to UV rays;  
High vacuum metallized plastic reflector  
and transparent screen; Long LED life time  
> 50000h; It complies with standards EN  
60598-1 and EN 60598-2-1.

**INSTALLATION**

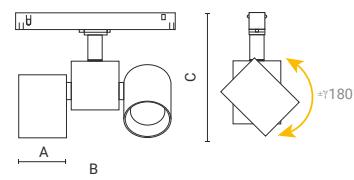

48V low voltage track installation;  
Engineering plastic track adaptor.

**STANDARD PRODUCT**

DECK2 | black color

## DECK

*170° adjustable spot.*

Available in three sizes, DECK features a medium or flood optic. The 170° swivelling body allows the beam to be directed downwards to illuminate spaces and objects or upwards to illuminate ceilings and vaults.

## DECK

The swivelling body allows areas and objects inside homes, offices, museums and art galleries, shops and showrooms to be precisely and efficiently illuminated.

JUNO | black brush

## **JUNO**

*Distinguishing Italian design.*

JUNO is the suspended luminaire with a retro shape. The set-back optic, with a high anti-glare index, and the striking colours make it a sought-after object, suitable for functional and decorative lighting.

**JUNO**

This versatile luminaire ensures high lighting performances and maximum adaptability to different settings.

**LUMINAIRE**

Die-cast aluminium body and trim; Polyester powder paint resistant to UV rays; Reflector made of anodized aluminium with non-iridescent specular finishing; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-1.

**INSTALLATION**

48V low voltage track installation;  
Engineering plastic track adaptor;  
Suspension with 1.5m transparent cable.

## **STILO40-50**

*A classic and elegant shape.*

STILO is the suspended luminaire with an essential and minimalist shape, available in two sizes and colours, with or without an opal screen. The possibility of creating compositions on several heights, combining sizes and contrasting colours adds a touch of design to interiors.

**STILO40-50**

The elegant style of the several versions allows this luminaire to be adapted to residential as well as professional and commercial settings.

**STILO40 Comfort****STILO40 Opale****STILO50 Comfort****STILO50 Opale****LUMINAIRE**

Steel body; Polyester powder paint resistant to UV rays; PMMA opal screen or comfort optic in polycarbonate; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-1.

**INSTALLATION**

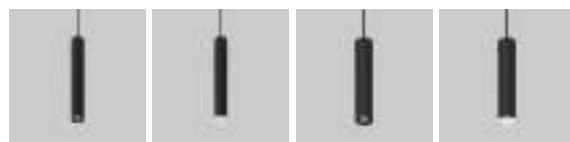

Suspended installation; Engineering plastic base plate; Cable cup with transparent power cable included.

## INTIS

*Technical design for high-power.*

INTIS, with its compact and functional design, offers a wide variety of anti-glare optics. Particularly suitable for applications in large architectural spaces, such as airport hubs and stations, it also fits medium-sized ceilings.

## INTIS

Designed for a variety of environments, this powerful luminaire ensures high visual comfort.

## **RIGO51**

*Technical and controlled light.*

RIGO51 offers direct and indirect lighting. Available in two standard lengths and different types of optics, this pendant luminaire gives character and personality to both residential and professional interiors, offering high-quality, controllable and technical lighting.

**RIGO51**

The linear and geometric shape of RIGO51 is also suitable for modular lighting systems in interior environments, such as offices, shops, hospitality and private homes.

**LUMINAIRE**

Extruded aluminium body; End caps made of die-cast aluminium with magnetic fixing; Polyester powder paint resistant to UV rays; PMMA lenses with high vacuum metallized or black polycarbonate louvre; Transparent microprismatic polycarbonate or opal screen, or reflector in brushed aluminum; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-1.

**INSTALLATION**

Suspended installation; Engineering plastic base plate; Steel cable 1.5m for suspension; Cable cup with transparent power cable included.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468.  
End caps and suspension kit included.

## OFFICE FLOOR LAMPS

*Professional lighting for smart offices.*

Designed for the new smart office trends, Arcluce office floor lamps are equipped with independently controlled bidirectional (direct/indirect) optics. By offering high lighting versatility and performances, they are specifically conceived for professional contexts where layouts of rooms often change and individual workstations move too.

LECTRA-VIZOR | lamellar reflector | white color

## LECTRA VIZOR

*Sinuous design, functional light.*

Designed for smart and open-plan offices, LECTRA VIZOR offers the possibility of autonomous and independent adjustment of direct and indirect light emission. Practical and versatile, it easily adapts to ever-changing desk layouts, always guaranteeing high lighting performances.

## LECTRA VIZOR

The floor lamp with its elegant design and clean lines can be combined with the VIZOR pendant luminaire.

### LUMINAIRE

Extruded aluminium body; Die-cast aluminium end caps; Steel base; Polyester powder paint resistant to UV rays; Opal polycarbonate screen, or reflector in brushed aluminum or PMMA lenses; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-1.

### INSTALLATION

Supplied complete with power cord and plug.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468.

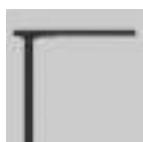

### STANDARD PRODUCT

Color	Wiring	CCT
<input type="checkbox"/> 11 (-11)	ON/OFF (A), BLE (T)	3000K (-830)

### AVAILABLE OPTIONS

<input checked="" type="checkbox"/> 12 (-12)	4000K (-840)
--	--------------

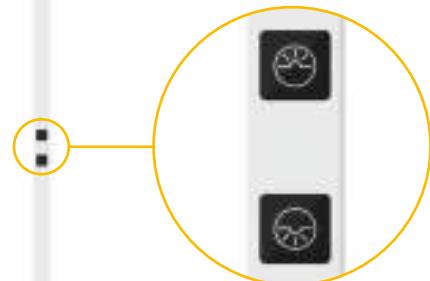

### Variants

**LECTRA VIZOR** is equipped with a digital infrared (IR) control system via backlit touch buttons.

Each button allows independent and complete control of one of the two light sources:

- **upper button:** indirect light
- **lower button:** direct light

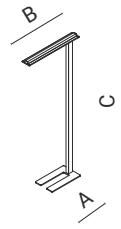

Switching on, switching off and dimming are controlled by the duration of the touch.

- **switching on and off:** by quick touches (less than 0.5 seconds);
- **change of intensity:** by prolonged pressure.

The system automatically memorises the last setting 15 seconds after the change.

LECTRA-RIGO | lamellar reflector | white color

## LECTRA RIGO

*Sharp lines, controlled light.*

Featuring a bidirectional optic with independently adjustable direct and indirect light, LECTRA RIGO finds its natural application in professional environments with smart work stations requiring a versatile and high-quality lighting.

## LECTRA RIGO

The anti-glare optics (UGR<19 and UGR<16) of LECTRA RIGO ensure high visual comfort.

AURUM | black optic | white color

## AURUM

*Soft and functional light.*

AURUM is the ceiling luminaire available in four sizes. The body, in white or black, can be optionally combined with a different colour of the inner frame. The opal screen and the warm temperature of the light produce a soft and pleasant effect, which illuminates residential, commercial and hospitality areas.

## AURUM

All versions of the series are equipped with ultra wide flood optics and CRI 90, which ensures high visual comfort.

**AURUM1****AURUM2****AURUM3****AURUM4****LUMINAIRE**

Extruded aluminium body; Polyester powder paint resistant to UV rays; Screen made of opal plastic material; Long LED life time > 50000h; It complies with standards EN 60598-1 and EN 60598-2-1.

**INSTALLATION**

Ceiling installation; Grommet for single cable entry; Base plate made of painted steel.

## DEMO-EVO

*A pleasant touch of style.*

DEMO-EVO is the ceiling luminaire featuring a diffuse optic with a high anti-glare index (UGR<16). Available in four sizes, in white or black, it has a pleasant matt finish. To add a personal touch of style, it is possible to choose different colours of the inner frame.

**DEMO-EVO**

DEMO EVO is the ideal lighting solution for shops and retail areas, offices, hotels and private homes.

**DEMO-EVO1****DEMO-EVO2****DEMO-EVO3****DEMO-EVO4****LUMINAIRE**

Extruded aluminium body; Polyester powder paint resistant to UV rays; High vacuum metallized plastic reflector or optical polymer lenses; Louvre in turned aluminum or technopolymer; Long LED life time > 50000h; It complies with standards EN 60598-1 and EN 60598-2-1.

DOT | white color

## DOT

*Classic, yet sophisticated.*

DOT is the ceiling/wall luminaire with ultra wide flood optics. Thanks to its special ice-effect screen, with a pleasant aesthetic impact, it catches the eye, enhancing indoor and outdoor spaces even in high humidity contexts.

**DOT**

The high protection degree (IP65) rating makes DOT a perfect luminaire in particularly humid indoor environments, such as swimming pools, spas and wellness centers.

**LUMINAIRE**

Die-cast aluminium body (EN 47100); Double layer polyester powder paint resistant to corrosion and salt spray fog; Silicone rubber gaskets; AISI 316 stainless steel external screws; Opal PMMA screen; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-1.

**INSTALLATION**

Wall or ceiling installation; Grommet for single cable entry; Available double cable gland version for through wiring on request.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468.

INTIS | ceiling | white color

## INTIS

*Strength in its light shape.*

INTIS is the ceiling luminaire designed for spacious architectures. Thanks to the variety of optics and the three power levels, it finds its natural use in areas with high ceilings.

**INTIS**

The versatility of the fixture, which is also available in pendant version, ensures maximum customization of lighting effects.

**LUMINAIRE**

Die-cast aluminium body and trim (EN 47100); Double layer polyester powder paint resistant to corrosion and salt spray fog; Silicone rubber gaskets; AISI 316 stainless steel external screws; Reflector made of engineering plastic metalized in high-vacuum; Screen made of 4mm thermal-shock resistant tempered glass; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-1.

**INSTALLATION**

Ceiling installation; Remote control gear box for emergency version 3h; Tecnopolymer M20 cable gland; Available double cable gland version for through wiring on request.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468.

PIXOL110/150 | performance | white color

## **PIXOL110/150/200**

*Simple and functional.*

With an essential design inspired by the geometric shapes of the cube, PIXOL is available in three sizes and can be combined with the wall-mounted version. The various optics illuminate residential contexts, arcades, hotels and exhibition routes with character.

**PIXOL110/150/200**

The wide range of versions with different optics are the result of a careful product design, research and development.

## LIGHTING DATA

YNNO | 10 modules | white color

## YNNO

*Adjustable optics.*

YNNO is the ceiling luminaire available in three sizes with 3, 5 and 10 modules. The light sources are set back to reduce glare and the optical part on which the light sources are installed can be adjusted up to  $\pm\gamma = 20^\circ$  to ensure greater functionality and lighting versatility.

**YNNO**

YNNO is the ceiling luminaire particularly suitable for lighting stores, showrooms and residential environments.

**YNNO3****YNNO5****YNNO10****LUMINAIRE**

Die-cast aluminium body; Polyester powder paint resistant to UV rays; Reflector made of engineering plastic metalized in high-vacuum; Long LED life time > 50000h with L80; It complies with standards EN 60598-1 and EN 60598-2-1.

**INSTALLATION**

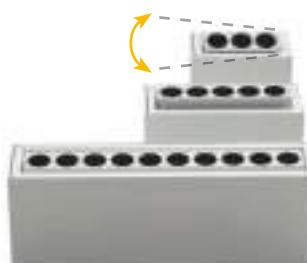

Ceiling installation; Galvanized steel base plate.

# RECESSED DOWNLIGHTS

*Functional and decorative lighting effects.*

Designed for functional and decorative lighting in residential, professional, hospitality, commercial and exhibition areas, museums and showrooms, recessed downlights discreetly integrate into interior architecture. The wide variety of versions and optics, also adjustable, allows the lighting performance to be diversified according to the environment and to ensure maximum visual comfort.

RECESSED DOWNLIGHTS

 Arcluce

ARCLUCE.IT

DiMILANO60 | standard frame | round/squared | white/black optic

## DiMILANO60

*The series inspired by Milan.*

Multifaceted and elegant, the DiMILANO series is Arcluce's homage to the iconic, internationally recognised city. Round or square, with or without frame, also in pinhole version, the ceiling recessed luminaires of this series complete rooms with style and lighting quality.

RECESSED DOWNLIGHTS

 Arcluce

**DiMILANO60**

The downlight allows for a maximum customisation of the lighting design thanks to the variety of versions available in terms of both aesthetics and light output.

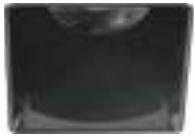

Trimless

DiMILANO100 | standard frame | round/squared | white/black optic

## DiMILANO100

*Homage to Milan.*

Larger dimensions characterise the series available in several variants to give a touch of personality and exclusive style to the lighting of rooms in residential or commercial contexts, such as shops and showrooms.

RECESSED DOWNLIGHTS

 Arcluce

**DiMILANO100**

The assortment of optics with recessed sources, pinhole or narrowing, reflector or lens, allows a wide variety of lighting effects for comfortable illumination.

Trimless

Standard frame

Pinhole

**LUMINAIRE**

Die-cast aluminium body and trim; Polyester powder paint resistant to UV rays; Reflector made of engineering plastic metalized in high-vacuum or PMMA lenses; UV rays stabilized, 850°C glow wire test resistant, VO self-extinguishing clear polycarbonate screen; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-2.

**INSTALLATION**

Recessed installation; Steel spring clips.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468.

## LED PROFESSIONAL APPLICATIONS

## FOOD - LARGE-SCALE DISTRIBUTION

- LED suitable:
- for fruit, vegetables and cheese,
- for bakery counter,
- fish and butcher's counter

## RETAIL - MUSEUMS

- LED suitable:
- for retail, museums and art galleries

## LED PROFESSIONAL (LED P.)

LED optimised for the enhancement of specific product types.  
Check the LED P. column in the grid.

**BR** = Suitable for bakery counter

**FC** = Suitable for fruit, vegetables and cheese

**FS** = Suitable for fish counter

**MD** = Suitable for retail

**MS** = Suitable for museums and art galleries

**MT** = Suitable for butcher's counter

TANTUM210 | symmetric, without glass | white color

## **TANTUM210**

*Bigger and more versatile.*

The largest size version of the TANTUM family features a wide and versatile variety of optics and reflectors. It ensures powerful and diffuse lighting, also wall washer, to enhance large architectural spaces.

RECESSED DOWNLIGHTS

 Arcluce

**TANTUM210**

Available in two colours and two colour temperatures, this luminaire is suitable for lighting shopping centres, offices, airports, museums, theatres and exhibition spaces.

**LUMINAIRE**

Die-cast aluminium body and trim; Polyester powder paint resistant to UV rays; Reflector made of anodized aluminium with non-iridescent specular finishing; tempered glass or polycarbonate screen; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-2.

**INSTALLATION**

Recessed installation; Engineering plastic brackets.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468.

## **TANTUM210 compact**

*Compact for high-performances.*

Reduced recessed depth, a wide range of versions and optics, including anti-glare (UGR <19), make TANTUM210 compact suitable for professional lighting of large retail spaces. The availability of Professional LED sources allows use in the specific lighting of goods on display.

RECESSED DOWNLIGHTS

 Arcluce

## TANTUM210 Compact

Compact and available in several aesthetic finishes, it is the ceiling recessed unit that can restore visual well-being to the environment in which it fits.

### LUMINAIRE

Die-cast aluminium body; Polyester powder paint resistant to UV rays; Reflector made of engineering plastic metalized in high-vacuum; Upper PMMA screen, flush polycarbonate screen; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; Available versions with optimized spectral distributions; It complies with standards EN 60598-1 and EN 60598-2-2.

### INSTALLATION

Recessed installation; Engineering plastic brackets.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468.

## QUANTUM130

The versatility of this downlight allows for diversified lighting effects to suit various types of environments, such as hotels, restaurants, commercial and residential spaces.

### LUMINAIRE

Die-cast aluminium body and trim; Polyester powder paint resistant to UV rays; Reflector made of anodized aluminium with non-iridescent specular finishing or metallized polycarbonate in high-vacuum; Thermal-shock resistant tempered safety glass; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-2.

### INSTALLATION

Recessed installation; Steel springs with engineering plastic covers.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468.

### STANDARD PRODUCT

## **QUANTUM210**

*Powerful illumination for large areas.*

The slim frame conceals a high lighting capacity that makes this downlight an elegant luminaire for specific applications in large areas. The very wide flood or wall washer optics ensure diffuse and pleasant illumination that can emphasise any architectural context.

## QUANTUM210

The recessed ceiling luminaire for general and functional lighting of large interior areas.

### LUMINAIRE

Die-cast aluminium body and trim; Polyester powder paint resistant to UV rays; Reflector made of anodized aluminium with non-iridescent specular finishing; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-2.

### INSTALLATION

Recessed installation; Galvanized steel brackets.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468.

RECESSED DOWNLIGHTS

■ Arcluce

GEO | black optic | white color

## GEO

*Small, slim and adjustable.*

GEO is the functional and versatile recessed downlight. The small depth of the housing allows practical installation even in low shelves and false ceilings. The reflector that can be swivelled  $\pm 20^\circ$  makes it possible to illuminate details and exhibits on shelves and showroom niches at the desired inclination.

**GEO**

With its aluminium body and frame, GEO is suitable for use in display and commercial areas, such as shops, offices and hotels.

**LUMINAIRE**

Die-cast aluminium body and trim; Polyester powder paint resistant to UV rays; Lenses for LEDs made of optical technopolymer; Long LED life time > 50000h with L80; It complies with standards EN 60598-1 and EN 60598-2-2.

**INSTALLATION**

Recessed installation; Steel springs with engineering plastic covers.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468.

FLOW | wall washer | white color

## FLOW

*Lighting that enhances details.*

Available in three sizes, FLOW is the sober and functional ceiling downlight. Equipped with a wall washer optic, specifically designed to evenly illuminate walls from ceiling to floor, it enhances exhibits in shops, commercial and residential areas.

## FLOW

FLOW follows the lines of display walls in shops, supermarkets and retail spaces. For optimal installation, it is recommended to position FLOW at a distance from the wall of 1/3 of the room height.

**FLOW1****FLOW2****FLOW3**

NOON3 | black reflector | white color

## NOON

*Style and refinement.*

With its clean, refined style, NOON completes and enriches rooms with a touch of refined elegance and lighting quality. Available in three sizes, with white or black reflector, it features high colour rendering and a wide variety of optics. It accurately and precisely illuminates details and objects in residential or professional settings.

## NOON

All its variants are suitable for lighting stores, museums, commercial and residential environments.

*Essential lighting.*

The linear design makes RIGO-IN51 an elegant and functional lighting solution that enhances and gives character to interior spaces. Available in various lengths and optics, it adapts to the project requirements.

RECESSED DOWNLIGHTS

 Arcluce

**RICO-IN51**

With its minimalist elegance, practical recessed installation and high quality of light output, it is suitable for indoor lighting in both residential and professional settings.

**LUMINAIRE**

Extruded aluminium body; Die-cast aluminium end caps; Polyester powder paint resistant to UV rays; PMMA lenses for LEDs; Transparent microprismatic polycarbonate or opal screen, or reflector in brushed aluminum; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-2.

**INSTALLATION**

Recessed installation; Grommet for single cable entry; Galvanized steel brackets.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468. Fixture complete with end cups and mounting brackets.

RIGO-IN51 GCO | trimless | black round optic

## RIGO-IN51 GCO

*Space for character.*

RIGO-IN51 GCO is the downlight with a strong aesthetic character. Available in various versions, which differ mainly in the shape and colour of the louvre, it offers anti-glare lighting (UGR<19) that is particularly suitable for residential and professional applications.

RECESSED DOWNLIGHTS

 Arcluce

**RICO-IN51 GCO**

Four versions available to best suit the lighting design needs and personal taste.

Metalized square optic

Black square optic

White round optic

Black round optic

**LUMINAIRE**

Extruded aluminium body; End caps made of die-cast aluminium or in painted steel; Polyester powder paint resistant to UV rays; Reflector made of engineering plastic, black, white or metallized in high-vacuum; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-2.

**INSTALLATION**

Recessed installation; Fixing with painted galvanized steel brackets or with steel spring clips.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468. Fixture complete with end cups and mounting brackets.

## WALL-MOUNTED FITTINGS

### *Decorative light.*

Unidirectional and bidirectional optics, a variety of colour temperatures, round, square or linear shapes give life to uniquely designed products that furnish and enhance interior spaces. The light effects generated by Arcluce wall-mounted luminaires add a scenic touch to architecture, providing a pleasant and exclusive atmosphere in residential, commercial and professional settings.

## **TULA**

*Punctual light.*

With its functional and compact design, TULA offers a wide variety of optics (single and bi-emission). The different lighting effects enhance rooms with taste, discretion and functionality.

## TULA

Thanks to its high degree of protection (IP66), it is also suitable for lighting particularly humid environments.

**UNIDIREZIONALE****BIDIREZIONALE**

		IP66		IK07		0,02m²	
--	--	------	--	------	--	--------	--

**LUMINAIRE**

Die-cast aluminium body (EN 47100); Double layer polyester powder paint resistant to corrosion and salt spray fog; Silicone rubber gaskets; AISI 316 stainless steel external screws; PMMA lenses for LEDs; Opal PMMA screen or 5mm thermal-shock resistant tempered safety glass; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-1.

**INSTALLATION**

Wall mounted; Waterproof grommet for single cable entry; Die-cast aluminium base plate (EN 47100).

These fittings are suitable for the modern control systems. For the various possibilities, please see section "Controlling the light" section on page 468.

OPERA | driver included | white color

## OPERA

*Precise lighting.*

OPERA is the wall-mounted luminaire with a swivelling spot for a perfect adjustability of the light beam. The practical lighting technology and the high colour rendering index allow for clear and precise illumination that enhances interiors.

## OPERA

The adjustability of the light beam and the two available optics allow for the maximum customisation of the lighting effect.

### LUMINAIRE

Die-cast aluminium body; Polyester powder paint resistant to UV rays; Reflector made of engineering plastic metalized in high-vacuum; Visor made of black engineering plastic; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-1.

### INSTALLATION

Wall mounted; Die-cast aluminium base plate.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468.

## MODAL1

*Directional light.*

MODAL1's 90° swivelling optic allows to illuminate and enhance details. The recessed LED sources and the high colour rendering index guarantee excellent visual comfort to interiors.

## MODAL1

Customisable with honeycomb visors and louvres, it is perfect for indoor lighting in both commercial and residential spaces.

### LUMINAIRE

Die-cast aluminium body; Die-cast aluminium control gear box; Polyester powder paint resistant to UV rays; Reflector made of engineering plastic metalized in high-vacuum; Visor made of black engineering plastic; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-1.

## MIKO

*For the right atmosphere.*

MIKO is the wall luminaire with an elegant, minimalist design. The radial optic (indirect light) generates a soft, warm lighting effect on the surrounding wall. A scenic touch to the architecture.

**MIKO**

The high degree of protection allows MIKO to be placed in contexts characterised by the presence of humidity, such as spas, swimming pools and wellness centres.

**LUMINAIRE**

Die-cast aluminium body (EN 47100); Double layer polyester powder paint resistant to corrosion and salt spray fog; Silicone rubber gaskets; AISI 316 stainless steel external screws; PMMA lenses for LEDs; Screen made of 4mm thermal-shock resistant tempered glass; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-1.

**INSTALLATION**

Wall mounted; Waterproof grommet for single cable entry; Die-cast aluminium base plate.

**GAP**

GAP | white color

## GAP

### *Diffuse lighting.*

GAP features a direct and indirect light optics. The light beam emitted in the lower part is almost a livery that enhances the subtle lines; the indirect, ultra-diffuse or asymmetrical light illuminates the room homogeneously, creating a pleasant and exclusive atmosphere.

## GAP

With its minimal design and refined linear shape, GAP is available with Bluetooth Low Energy (BLE) technology for intelligent lighting control, also in RGBW version.

### LUMINAIRE

Extruded aluminium body; Die-cast aluminium end caps; Polyester powder paint resistant to UV rays; Double PMMA screen; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-1.

### INSTALLATION

Wall mounted.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468.

RIGO31 | opal screen | white color

## **RIGO31**

*Soft light for a perfect atmosphere.*

A true stylish detail for interiors, RIGO31 is the wall-mounted luminaire with direct and indirect light optics. The opal screen gives the light a soft effect that enhances rooms with diffuse lighting.

**RIGO31**

RIGO31 enhances volumes and spaces in a functional way, ensuring an ultra-comfortable lighting, with a high colour rendering index.

**LUMINAIRE**

Extruded aluminium body; Die-cast aluminium control gear box; End caps made of die-cast aluminium with magnetic fixing; Polyester powder paint resistant to UV rays; Opal polycarbonate screen; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-1.

**INSTALLATION**

Wall mounted; Galvanized steel base plate.

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468. End caps included.

## STEP LIGHTS

*Tiny points of light that guide steps.*

Besides their safety purpose, step lights are the functional and aesthetic lighting solution for illuminating staircases and hallways even in high humidity conditions, such as inside spas and wellness centres. Arcluce offers recessed luminaires with a minimal and modern design, capable of guaranteeing comfortable lighting, low energy consumption and pleasant enhancement of interior spaces.

THUNDER65 | round trim | stainless steel

## THUNDER65

*Practically unbreakable.*

The fibreglass-reinforced technopolymer body makes this step light robust and durable. Available with a round, square or rectangular frame, it is suitable for illuminating walkways, stairways and transition areas in residential and commercial environments, even those with high humidity, such as spas and wellness centres.

## THUNDER65

THUNDER65 is the extremely durable wall-recessed luminaire, available in several variants.

### LUMINAIRE

Shatterproof body made of fiber glass reinforced engineering plastic; Die-cast aluminium (EN 47100) or AISI 316L stainless steel trim; Double layer polyester powder paint resistant to corrosion and salt spray fog; Silicone rubber gaskets; AISI 316 stainless steel external screws; UV rays stabilized, 850°C glow wire test resistant, V0 self-extinguishing opal or transparent photoengraved polycarbonate screen; High quality LED sources characterized according to IES TM-30, with high color consistency <3SDCM and long useful life >60000 hours at L80; It complies with standards EN 60598-1 and EN 60598-2-2.

### INSTALLATION

Recessed installation; Supplied with recessed installation box made of engineering plastic; Supplied with power cable (3m).

Versions with Casambi and other modern control systems available, for more information see the "Light Control" section on page 468.

## STRIPLED

*Sceneries of light.*

STRIPLINE and GRAPHICLIGHT are the LED strips designed for the evocative and scenic lighting of interior spaces, even in the presence of humidity. They can be wall- or ceiling-mounted on flat or curved surfaces. Both models are available in different lengths to better suit the needs of any lighting project.

---

STRIPLINE

458

---

GRAPHICLIGHT

464

10

## STRIPLINE

*Flexible and evocative.*

Designed for wall or ceiling installation, it can actually be applied on any surface using the special adhesive. Also available in a tunable white version (2700K/6500K), it lends itself to the evocative illumination of indoor spaces and wet environments (protection degree up to IP67).

## STRIPLINE

Versatile and high-performance, STRIPLINE illuminates places by creating special lighting effects.

## GRAPHICLIGHT

*Scenic lighting.*

GRAPHICLIGHT is the LED strip that can be installed on walls and ceilings, both on flat and curved surfaces, by means of special fixing clips. Easily adaptable to the desired length, it allows you to create decorative and scenic effects even in wet environments.

**GRAPHICLIGHT**

The strip LED is available with 120° extra wide flood optics for flat surfaces or with 180° optics for curved surfaces (bending diameter 120mm).

		IP65 0120025C	IP67 0120026C	high CRI	high lm/w	BLE-DALI		LOW FLICKER
--	--	------------------	------------------	----------	-----------	----------	--	-------------

**LUMINAIRE**

High chromatic consistency LED: CRI>90;  
High colour consistency: <3SDCM; Resistant  
to UV rays; Long LED life time > 50000h.

**INSTALLATION**

Wall or ceiling installation; Bending diameter  
120mm.

Versions with Casambi and other modern  
control systems available, for more  
information see the "Light Control" section  
on page 468.

## CONTROLLING THE LIGHT

When using modern light management systems we have a correct use of light fittings and considerable advantages:

### ENERGY SAVING

Reduction of energy consumption with financial and environmental benefits.

### ENERGY SAVING

Natural light is integrated in an optimum way with the fittings light.

### LIGHT LEVEL TUNING

The possibility to adjust the brightness level to let the user enjoy the best possible light in any kind of environment. Smart tuning could switch on or soften the light according to timing, natural lighting or human presence.

### LIFETIME

The natural decay of the lighting flux can be compensated by increasing the power supplied to the LED module. This lumen management system would extend the product lifetime and reduce the need for maintenance interventions.

### HI-TECH UTILITY

Smarter fittings within modern electronics communicate through sensors to a central control unit, in order to optimize the user experience and usability.

The current market gives multiple and strengthened technologies suitable to every kind of context.

Analogue protocol allowing for the modulation of light intensity via a common normally open pushbutton. An additional cable for the signal is required.

Analogue protocol allowing for the modulation of light intensity via phase cut dimmers. No additional signal cables are required.

Analogue protocol allowing for the modulation of light intensity via dedicated dimmers. Two additional cables for the signal are required.

Digital protocol allowing individual light point addressing, modulation of light intensity, creation of scenarios and integration into more complex building management systems (BMS). Requires two additional signal cables.

Digital protocol initially used in theatres. Particularly suitable for very dynamic scenarios and colour-changing systems, due to its low signal latency. A two-pole armoured cable for the signal is required.

Finally, to take the best advantages from the light management systems it is essential to select the best control system.

## WALL WASHER OPTICS

AVAILABLE FOR A WIDE RANGE OF PRODUCTS

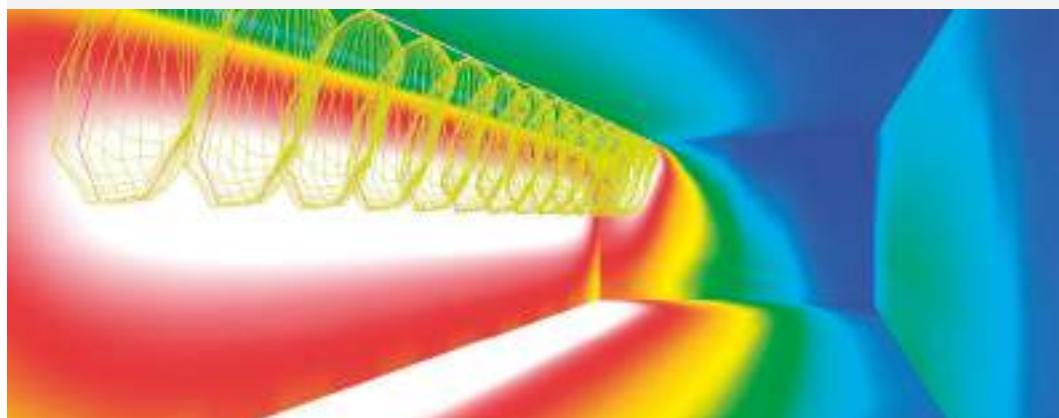

The distance from the wall should be accurately considered, luminaires are usually placed at a distance of one third of ceiling height.

The optics wide angle contributes to the "smooth out" lighting effect and allows a reduction in the number of luminaires needed to illuminate the surface.

Wall Washer optics provides a uniform illumination of large vertical surfaces. By emphasizing walls, it creates a visual expansion effect to make spaces brighter and higher.

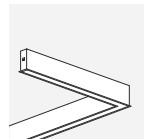

It is mainly used in museums, galleries, retail and landscape lighting. In these kind of applications the task is to direct the focus of a customer correctly and to give an excellent uniformity lighting.

## GENERAL CONDITIONS OF SALE

This catalogue shall replace and supersede any previous ones.

The models shown here represent our current INTERIOR product range.

**Arcluce S.p.A. "Arcluce"** reserves the right to amend this catalogue without any prior notice.

### 1. DELIVERY

Any delivery terms agreed upon are provided only as a guide and dependent on the available manufacturing schedule. In no case and for no reason shall Arcluce be liable for any direct or indirect damage caused by untimely deliveries.

**Arcluce** shall be entitled to deliver partial consignments to fulfil orders according to availability, without prejudice to payments, even if the order is not completely fulfilled. Products can only be delivered if the Purchaser timely met their obligations towards **Arcluce**.

### 2. PLACE OF DELIVERY, SHIPMENTS, RISKS

The goods travel at the purchaser's risk and danger, even if they are carriage paid, due to special agreements.

The purchaser shall have to check the quantity and the conditions of the goods at the time of delivery by the carrier.

In case of defects, such as shortages, mishandling, malfunctions, the purchaser shall take all appropriate steps against the carrier within their rights.

Without any specific instructions from the purchaser, we shall be authorized to use the means of transport that are most suitable.

### 3. CANCELLATION

Orders can only be cancelled with Arcluce's consent. In any case, if the ordered products had been customized as based on the purchaser's request, the purchaser shall pay the whole original price, as well as the orders cancelled more than 15 days after order acknowledgement by **Arcluce**.

### 4. RETURNS, QUANTITY AND QUALITY CLAIMS

No returned goods will be accepted without our prior written authorization.

Any returned goods that are duly authorized must be shipped to our plants free of charge and accompanied by the relevant document which clearly specifies the invoice details referring to each product, pursuant to V.A.T. art. 26 of Pres. Decree no. 633 of 26/10/72.

The purchaser shall notify in writing any complaints on the quantity, type or defects of the products within and no later than 8 days from their receipt. In default thereof, no replenishments or replacements will be considered.

The characteristics, drawings and sizes shown in this catalogue are not binding and may be changed without any prior notice.

### 5. PAYMENT

In case of delayed payment on the due date of the invoice, **Arcluce** can immediately request all amounts due and the penalties for the delay, starting from the date of the delay and without any further notice.

The purchaser shall not have any rights of retention or compensation with any kind of credits they might have towards **Arcluce**.

### 6. SUSPENSION OF THE DELIVERIES

In case of insolvency, as in cases of business incapacity of the purchaser or in case of any variation in the legal name of the purchaser, **Arcluce** shall suspend or totally cancel the supply of products as per Article 1461 of the Italian Civil Code.

### 7. RETENTION OF OWNERSHIP

FOR ALL PURCHASES THAT OCCURRED BETWEEN ARCLUCE AND ITS CLIENTS, THE TITLE OF THE OWNERSHIP OF THE GOODS REMAINS VESTED IN THE SELLER UNTIL THE PURCHASER FULFILS THE PAYMENT OF THE PRICE THEREOF, INTEREST AND ANY ADDITIONAL AMOUNTS.

THE PURCHASER WILL NOT SELL OR HANDLE THE GOODS UNTIL THEY FULFIL ALL OF THEIR OBLIGATIONS AND SHALL IMMEDIATELY INFORM ARCLUCE OF EVERY ACTION IN DETRIMENT OF THEIR PROPERTY RIGHTS.

The purchaser shall sell the goods only if they timely paid and concluded with their clients a retention of title clause of at least the same severity.

If the purchaser sold the goods before having fulfilled the payment, the sale between **Arcluce** and the purchaser will automatically be discharged and the goods will be considered as being sold by **Arcluce**. Notwithstanding the retention of ownership, every risks related to delivered goods shall be borne by the purchaser, starting from the moment of the delivery of the products to the carrier or to the purchaser.

The purchaser shall assure the products on their own name or a third party's and shall be able to give **Arcluce** notice thereof at any time. Products stored in the warehouse are considered as unpaid.

### 8. BREACH OF CONTRACT

Should the purchaser fail to fulfil contract obligations, **Arcluce** will terminate all unpaid purchases without any notice; in this case **Arcluce** shall be entitled to start legal action for damages.

### 9. LAW AND JURISDICTION

Any and all controversies referring to these general conditions of sale and/or about any relevant transactions shall be governed and construed in accordance with the Italian law.

Any and all controversies concerning the validity, the meaning or performance of these general conditions of sale shall be submitted to the exclusive competence of the Law Court of Milan.

FOR ANY ISSUES NOT GOVERNED BY THESE GENERAL CONDITIONS OF SALE, THE CURRENT LEGAL PROVISIONS SHALL APPLY.

OUR POLICY IS THE CONSTANT IMPROVEMENT OF OUR PRODUCTS. THEREFORE, WE RESERVE THE RIGHT TO AMEND THE CHARACTERISTICS OF THE EQUIPMENT WITHOUT ANY PRIOR NOTICE. HENCE, PLEASE REFER TO THE WEBSITE FOR INFORMATION ON THE UPDATED TECHNICAL DATA. ALL INFORMATION IS PROVIDED IN GOOD FAITH.  
WE SHALL NOT BE LIABLE FOR ANY ERRORS, OMISSIONS OR MISCONSTRUCTION.

THE PHOTOGRAPHS AND DRAWINGS ARE WITHIN THE LIMITS OF THE QUALITY OF THE PRINTED REPRODUCTION, NOT BINDING AND FOR ILLUSTRATIVE PURPOSES ONLY.
